4 Courses

Oct 9, 2025

Diya Shah

has successfully completed the online, non-credit Specialization

Core Java

In this Core Java specialization, learners gained the knowledge and skills needed to become an object-oriented programmer using the Java language. In the four courses of this specialization, learners mastered the Java programming language and the packages that constitute its rich set of core libraries. Through many hands-on exercises, learners developed their own Java-based applications using beginner to advanced Java functions.

Introduction to Java

Introduction to Object-Oriented Programming with Java

Object-Oriented Hierarchies in Java

Java Class Library

LearnQuest's Instructor Network is comprised of professionals across hundreds of technology disciplines from around the world.
